**A one day workshop
for Tasmanian
leaders, organisers
and changemakers**

WHAT WILL YOU LEARN?

- The prevalence and impacts of violence against women
- The link between gender inequality and violence against women
- What primary prevention of violence against women is
- The evidence on what drives violence against women
- The actions required to prevent violence against women and the role that everyone can play in prevention
- Applying an intersectional approach to primary prevention work
- Good-practice examples of primary prevention activities
- Our Watch's role in leading the primary prevention of violence against women across Australia
